Advanced Bone Nutrition Formula

Aquamin Calcium + Vitamin D3 + Vitamin K2-7

AdenoCal™-K2

Tablets

Supplement Facts : Serving Size 1 tablet							
Energy	0.12Kcal	Protein	0.00gm	Carbohydrate	0.03gm	Fat	0.00gm
						Amount per serving	*%RDA
Aquamin™ (Red algae derived multi-mineral matrix) (Lithothamnion spp.)						1000mg	
eq. to elemental calcium (existing as Calcite 214.9mg,Aragonite 76.0mg,Vaterite 39.7mg)						330mg	33
eq. to elemental magnesium						25mg	5.68
72 Trace minerals (Including Potassium,Phosphorus,Copper,Boron, Manganese,Sodium,Chloride,Selenium,Sulphur,etc.)						35.7mg	
Vitamin K_2-7						45mcg	81.81
Vitamin D_3						400 IU	66.66

*%RDA calculated as per basis ICMR guidelines for men (moderate work)

Why Aquamin Calcium

- Marine plant–derived calcium from red algae (Lithothamnion species)
- Highly porous, honeycomb structure for superior absorption
- Provides calcium, magnesium, and 72 trace minerals
- Demonstrated high bioavailability (~86.5%)
- Helps reduce serum PTH indicating better calcium utilisation

Ideal Patients

- Pregnant Women
- Post-menopausal women
- Osteopenia and osteoporosis
- Elderly patients
- Steroid-induced bone loss
- Patients intolerant to conventional calcium

3-Step Bone Strength Mechanism

ABSORB	UTILISE	DEPOSIT
Aquamin Calcium	Vitamin D3	Vitamin K2-7
Gentle on Stomach	Improves Gut Absorption	Directs Calcium to Bone
Better Absorption	Maintains Serum Calcium	Prevents Vascular Calcification

Not just Calcium Replacement - **Physiological Bone Nutrition**
