Liposomal Iron with Active Hematinics

- High Absorption
- Gentle on Stomach
- Better Compliance

Small Tablet Easy to Digest

Bioipc®

Tablets

with Quatrefolic®

Effective Iron Correction without the GI Burden

Supplement Facts:Per Serving : 1 Tablet (Approx Values)		
Energy 0.263Kcal	Protein 0.016g	Carbohydrate 0.068g
Sugar 0.00g	Fat 0.007g	
	Amount per serving	*%RDA
Elemental Iron (Ferric pyrophosphate/Ferric diphosphate 337.5mg as Liposomal Iron)	27mg	100
Quatrefolic® (6S)-5-Methyltetrahydrofolic acid glucosamine salt (eq.to 570mcg Folate)	655mcg	100
Vitamin B6 (Pyridoxal-5-phosphate)	2.3mg	100
Vitamin B12 (Cyanocobalamin)	2.45mcg	100
Glycine	10mg	#

How it works
Liposomal Iron Technology

Iron is encapsulated in a phospholipid liposome that protects it from gastric acid. The iron reaches the small intestine intact and is released at the main absorption site, resulting in higher bioavailability and reduced gastrointestinal irritation.

Why It's Better Than Conventional Oral Iron?

- Minimal nausea, constipation, and epigastric discomfort
- No metallic taste or odor
- Reduced oxidative stress
- No interaction with food or calcium
- Better patient compliance

Complete Hematinic Support

Elemental Iron (27 mg)
Hemoglobin Synthesis

Quatrefolic® (Active Folate)
DNA Synthesis and Erythropoiesis

P5P (Active Vitamin B6)
Heme Synthesis

Vitamin B12
RBC Maturation

Glycine
Structural Support for Heme

Clinical Confidence

Clinical studies on liposomal iron demonstrate significant ferritin improvement, hemoglobin rise comparable to IV iron and excellent tolerability even with long-term use.
